

## XOANONS® Reactive silicone leveling agent

### Model number

XOANONS®WE-D7100

### Composition

Reactive silicone additive with acrylic acid functional group

### Specifications

Model number	Appearance	Solvent	Density(g/ml) (25±1)℃	Viscosity(s) (25±0.2)℃	Active substance(%)	Flash point(℃)
XOANONS® WE-D7100	Transparent clear liquid	— —	1.03-1.07	J-N (Bubble viscometer)	100	>100

### Application system

UV Curing coating/paint/ink

### Suggested addition

Model number	Addition to total formulation%
XOANONS®WE-D7100	0.1-1.0

### Incorporation

Prediluted with solvent in coating system would be more miscible, including post-addition,

### Application recommendation

Model number	Mobility	Slip	Stain resistant	Substrate wetting ability	Defoaming
XOANONS®WE-D7100	5	1	0	3	0

0=unavailable 5=very effective

### Property and advantage

Model number	Property and advantage
XOANONS® WE-D7100	To improve the leveling, overprint and could radiation crosslinking. It could used in vacuum plating primer which would not influence on interlayer adhesion.

## **Package**

25KG      180KG

The container should be closed tightly before completely use up.

## **Storage**

Should store in cool and dry place.

Can keep intact 24 months in original package.
